Sir:

In response to the "Notice to File Corrected Application Papers" dated June 15, 2004, the following items are being submitted with this communication:

1. A substitute specification (specification, claims and abstract pages, total 22 sheets) with proper line spacing.
2. A marked-up copy of the specification, indicating the changes made in the substitute specification.
3. A set of FORMAL drawings (FIGS. 1-8; 6 drawing sheets).
4. A copy of the Notice.

In addition to submitting a substitute specification having proper line spacing, upon reviewing the specification during retyping, a few minor grammatical errors were discovered, which have been corrected in the substitute specification. The changes that have been made are shown in the attached mark-up copy.

The changes are with respect to format and grammar only, and such changes do not alter the content of the original specification. Thus, the substitute specification includes no new matter.

Finally, a new set of FORMAL drawings, to replace the non-formal original drawing, and which are more suitable for printing, are attached with this response. Again, the FORMAL drawings do not change the original content of the specification, nor introduce any new matter.

Having fully complied with the requirements indicated in the USPTO notice, it is respectfully requested that the application now proceed to ordinary examination on the merits.

No additional fees are believed due at this time. Notwithstanding, should the USPTO determine that any other fees or deficiencies in fees, are currently due, such fees may be charged to the Attorney's Deposit Account No. 07-2519.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Paul A. Guss', with a long horizontal flourish extending to the right.
